NOMINATING COMMITTEE POLICIES

As directed by the WSSCA Constitution and By-laws Article IV Section 3. Annual Elections. At the annual election of officers and directors

The President, Secretary, Corresponding Secretary, and three (3) Directors shall be elected in odd numbered years. The Vice President, Treasurer and three (3) Directors shall be elected in even numbered years. All officers and directors shall be elected for two year terms. The delegate to the American Kennel Club will be elected on years divisible by four (4) for a four year term. Remember to consider geographical representation as much as is practical to do so. Prior to November 15, you will need to submit a slate of candidates to the Secretary. You need to procure a written acceptance from each candidate and it would be best to get a resume from each candidate at the same time. This will save time later if there are petitions for additional nominations.

WELSH SPRINGER SPANIEL WORKING CERTIFICATE TEST

RULES AND REGULATIONS

The purpose of the Welsh Springer Spaniel Club of America in providing rules and regulations for the Working Certificate is:

- A. To provide encouragement for the numerous exhibitors and breeders who are endeavoring to keep the Welsh Springer Spaniel a hunting dog as well as a show dog of good conformation.
- B. To promote cooperation and good will within the Welsh Springer Spaniel Club community and with other flushing breeds by the holding of field tests.

In order to make the tests available to as wide a number of flushing spaniel owners as possible, Working Tests may be offered by a club or by a group of owners. Club groups desiring to hold tests must obtain permission and approval from the chairperson of the Working Certificate Committee, starting date of the test, site, and names of proposed judges. Necessarily, the judges should be qualified by experience and be approvable for the judging of Licensed Field Trials and/or Hunt Tests. If no such qualified persons live in the area where the field test is to be held, the club or group may nominate any person known to be thoroughly familiar with the work of flushing spaniels in the field, briefly stating their qualifications. Working Tests are noncompetitive events. Dogs which pass these tests shall be qualified for the Working Certificate (W.D.) or Working Dog Excellent (W.D.X.).

Any dog [owned by a club member at the time of the test] that earns a hunting test leg (JH, SH, or MH) shall be granted a club title of WD (Working Dog) upon submission of proof from the American Kennel Club to the WSSCA Hunting Chairperson.

Entries for dogs being tested are to be entered on Working Certificate forms, supplied, on request, by the Chairperson of the Working Certificate Committee. Dogs are to be run singly; however, a minimum of three (3) dogs of any flushing breed must be entered and present to constitute an official testing. The Working Certificate Chairperson shall be responsible for keeping a permanent record of every Welsh Springer Spaniel that qualifies and shall inscribe and mail Working Certificates to the owners of dogs that have successfully qualified.

Rules: For Welsh Springer Spaniels entering a Working Dog test and attempting to earn a Working Certificate, two (2) entry forms must be filled out, completed and signed by the judges for each dog entered. One copy must be sent to the Welsh Springer Spaniel Club of America, Chairperson Working Dog Certificates, within one week of the test by the officiating Club or group members. The remaining copy of the completed entry form shall be given to the owner of the qualifying dog on the date of the test and it shall be the owners responsibility to send it to the parent club secretary.

Land Test: Live upland game birds (ducks and pigeons are optional), should be planted on the course or beat (two for each dog), at least seventy-five (75) to ninety (90) feet ahead of the starting line so that there is the opportunity for the dog to demonstrate ground coverage and hunting ability. Each dog is required to work a minimum of two (2) birds. There should be suitable ground cover at the site; stubble, brush, grass clumps, etc.

Water Test: At the water test, a shot is fired into the air and at the same time a dead bird is thrown; either from the shore or from a boat, so as to fall approximately 20-25 yards that requires the dog to swim in order to make the retrieve. A duck call, or similar action, should be utilized to assist with focusing the dog's attention to the vicinity from where the bird will be thrown.

In both the land and water test, the dog must retrieve the bird to a reasonable distance, but not necessarily to hand. Dogs may not be "chased down" to retrieve a bird. At the water test, both the dog and bird must be completely out of the water for completing the retrieve.

The established Safe-Gunning rules must be in effect at all times. If for some reason the bird cannot be shot (for example, a bird flying over the gallery or where a person may be in the line of fire, the bird getting up wild before the dog is started,) or if the bird is missed, additional birds should be planted to allow sufficient judging of hunting, flushing, and retrieving abilities. If a dog has **sufficiently** demonstrated that it can find and flush game but said game cannot be shot, a dead bird may be thrown with a shot fired while the bird is in the air to enable the dog to make the retrieve. The bird should be thrown at a distance to adequately test marking and retrieving ability. In the case of a fly-away, a dead bird may be thrown immediately following the recall and control of the dog at the handler's side, in order to assist with evaluating retrieving ability as well as taking the dog's mind off of the fly-away.

As an important safety measure and to prevent possible interference with the work of the dog being tested, or the guns a chance to shoot, one (1) or two (2) Stewards should be appointed to keep spectators, other handlers and dogs in a close group BEHIND the judges or in a designated place.

WORKING CERTIFICATE

In the Land Test for the Working Certificate, the dog should:

1. Sit or stay by the handler at the starting line, unleashed, until the judge instructs the handler to proceed. The handler "sends" his/her dog and walks behind directing the dog on the course.
2. Show reasonable, not necessarily immediate, response to the whistle and/or command, and reasonable quartering of the ground. The dog should not, for example, be completely out of control although a leniency should be allowed to give the handler

time to collect his dog.

3. NOT be required to be steady to wing and shot (flush or shot).
4. Demonstrate sufficient hunting ability to find and put up game in a workmanlike manner without undo urging, and should show no evidence of "pottering".
5. Within in a reasonable time, retrieve game to hand or within reasonable distance so that the handler can pick up the bird without chasing down the dog. The dog should retrieve the bird within one or two steps for satisfactory completion of a retrieve. The handler may direct the dog to the fall if the dog has not marked it.
6. "Hardmouth" is a serious fault. When a dog delivers a 'damaged' bird, ('damaged' meaning a bird that has been chewed or damaged by the dog making the bird unsuitable for the table or unable to be used in another training session for another dog), he will be disqualified. The disqualification occurs even if all other requirements of the Working Certificate test were completed satisfactorily.

In the Water Test for the Working Certificate:

1. The dog should not be required to sit or stay on the line, unleashed. The dog may be held on lead until the handler is directed by the judge to send the dog. At the water, the dog must be line-steady, off-lead, in order to qualify for a Working Dog Excellent title.
2. The dog should retrieve to hand or within reasonable distance (one or two steps) so that the handler can take the bird without chasing the dog on land, and at the water ensure the dog and bird both are completely out of the water for delivery of the bird.
3. The dog MUST swim to make retrieve. Wading is not sufficient for the test.

PROCEDURE TO BE USED IN AWARDING CERTIFICATES BY JUDGES

1. A dog that completes all parts of the test in a creditable manner will be awarded the Working Dog Certificate.
2. If in the opinion of the judges, the dog performs in an excellent manner in ALL (not just part) of the tests, the dog will be awarded the Working Dog Excellent Certificate. Therefore, a dog earning a W.D.X. must have all marks in the excellent column on the judges report.

IMPORTANT NOTE:

WSSCA POLICY REQUIRES THAT ALL PARTICIPANTS AND SPECTATORS AT WSSCA SPONSORED FIELD EVENTS WEAR AN ARTICLE OF BLAZE ORANGE WHILE ON TEST GROUNDS!

For additional information, contact the WSSCA Field Chairperson.

WSSCA ANNUAL RALLY AWARDS

The Gambler RAE Award

The Gambler RAE Award is awarded annually at the National Specialty Banquet to recognize the Welsh Springer Spaniel who has performed with distinction in the advanced levels of rally. The award will be open to all Welsh Springer Spaniels who have earned the final qualifying leg of the Rally Advanced Excellent (RAE) title within the club year. The award honors the first Welsh Springer Spaniel to earn the RAE, U-CD HIT CH Rolyart's Read Em And Weep CD RAE NA NAJ OAP OJP CGC.

The awardee will receive a large 3-streamer ribbon with the achievement and the dog's name printed on it.

If more than one Welsh Springer Spaniel earned the RAE during the club year, the tiebreaker will be awarded to the dog with the highest combined Advanced B/Excellent B score earned on the 10th (titling) leg. Should two dogs earn the same combined score for the 10th (titling) leg during the club year, the 9th combined score will break the tie. This method will continue through previous combined scores until there is a clear winner. In order to be eligible for the annual award, the owner(s) of the Welsh Springer Spaniel must be member(s) in good standing of the WSSCA for the full award year.

CODE OF ETHICS

PREAMBLE

This Code of Ethics is intended to serve as a guide that Members of the Welsh Springer Spaniel Club of America strive to follow, recognizing their role as guardians of the breed, and in a common interest in the protection and wellbeing of the breed and of the individual dogs that members own and produce in their breeding programs. Implicit in membership in the Welsh Springer Spaniel Club of America is acceptance and understanding of the Code of Ethics.

DEFINITIONS

The singular includes the plural.

"Dog" as used herein is to be interpreted as gender neutral and age neutral.

"Transferee" as used herein means the person(s) with whom a dog is placed regardless of ownership or the type of registration.

"Person" as used herein is to be interpreted broadly to refer to any natural person, corporation, associations, and all other forms of legal entities.

GENERAL CONDUCT

Members of the Welsh Springer Spaniel Club of America strive to:

Abide by the rules and regulations of the American Kennel Club ("AKC"), the Constitution and Bylaws of the Welsh Springer Spaniel Club of America ("WSSCA"), and this Code of Ethics ("CoE").

Consider the protection and future wellbeing of the Welsh springer spaniel in all of their dog-related activities.

Conduct themselves in a manner that reflects positively on themselves, the breed, and the WSSCA.

Behave as responsible dog owners, treating their dogs humanely and providing them with adequate food, water, shelter, veterinary care, exercise, grooming, and the socialization and training necessary for them to be family companions.

Exhibit good sportsmanship and good will at all dog-related events.

Educate others about the characteristics of the Welsh springer spaniel and the principles of responsible dog ownership.

Act against the maltreatment or misuse of dogs, whether by interceding personally or by notifying appropriate law enforcement authorities. WSSCA Officers are to be notified when such maltreatment or misuse involves Welsh Springer Spaniels. Act to ensure the welfare of any Welsh Springer Spaniel discovered in a pound or shelter or otherwise requiring new home placement and notify the WSSCA Rescue Committee.

Participate in efforts to assess and improve the health of the individual dog and of the Welsh Springer Spaniel breed, including, but not limited to, participation in valid, reliable, and responsible testing for hereditary diseases, providing samples and information for development of hereditary disease tests, and sharing health information with other WSSCA members. Be honest, factual, and not misleading or fraudulent, in any written or oral statement about dogs and breeding programs, whether about their own dogs or those of others.

BREEDING

Members of the Welsh Springer Spaniel Club of America, as guardians of the breed, strive to breed conscientiously, taking responsibility for the lives that they produce, including responsible placement of all puppies produced by any breeding, to ensure the safety and well-being of the individual dogs and of the breed.

Accordingly, members of the Welsh Springer Spaniel Club of America strive to:

Educate themselves to recognize the correct conformation of the Welsh Springer Spaniel and its relationship to the traditional function of the breed, familiarizing themselves with the AKC breed standard and representative dogs, prior to breeding a stud dog or brood bitch.

Learn the basic principles of genetics prior to breeding a stud dog or brood bitch and apply those principles to breeding decisions.

Keep abreast of current knowledge, technology, and available tests for inherited disease, including, but not limited to, hip dysplasia, epilepsy, and glaucoma, and use such knowledge and tests to reduce the incidence of inherited disease.

Plan breedings to conserve and improve conformation, health, temperament, and working ability in accordance with the AKC breed standard, including, but not limited to, the breed's function as a hunting dog and family companion, keeping these considerations in balance, neglecting none of them, whether acting as owner of the stud dog or owner of the brood bitch.

Prior to breeding, do the following:

Determine the radiographic hip status and eye condition of the breeding stock tested by a licensed or certified veterinary professional.

Share the results of the tests with the breeder(s) of the potential mates and with the owner(s) of potential mates. And, submit X-rays, eye examination information, and other test information to the appropriate health registries for their evaluation and allow their evaluation to be used to determine overall health statistics for the breed. Recommended health registries are the Orthopedic Foundation for Animals and The Canine Eye Registration Foundation. Breed only animals that are in good health and who are physically and temperamentally sound.

Avoid breeding animals before the age of two years, in consideration of the animal's physical and mental maturity and well-being and in consideration of the age of onset of inherited diseases, such as, epilepsy and hip dysplasia.

Remove animals from breeding who are known to have, or who are strongly suspected of having, a serious inherited disease or defect that will likely be passed onto offspring and that, if inherited, would significantly affect the quality of life of any offspring that would be produced.

Breed only dogs and bitches whose offspring will be AKC registerable.

Keep accurate records in accordance with AKC requirements. Share information gained through breeding with other Welsh springer spaniel owners.

Bitches

Ensure that bitches are not bred more than twice in any three consecutive seasons, out of concern for the physical and mental well-being of the bitch.

Stud Dogs

If a stud dog owner, do the following: Consider the health, hip, eye evaluations, and pedigree of the bitch prior to agreeing to provide stud services.

Make every reasonable effort to contact the breeder of the bitch in order to check for genetic problems and breeding restrictions.

If a contract exists between the bitch's owner and her breeder, not breed contrary to restrictions and not to interfere with the contract.

Confirm that the bitch's owner is aware of the effort required to produce and care for a litter and that they will ethically and responsibly sell and place puppies as described herein.

Puppies

Commit to keeping all puppies until they can be placed directly with responsible persons.

Commit to accepting the return of any puppy at any future time as may be needed in conformity with this Code of Ethics.

Provide a clean, warm, safe environment for puppies with ample exposure to human handling, to household activity, and to a nutritious diet.

Transfer dogs of any age with written contracts signed by both parties covering any guarantees or restrictions, including, for example, limitations on breeding and a commitment to sharing health information.

Place puppies only with persons who intend to act responsibly for the life of the dog.

Act as a mentor to persons with whom they place puppies and encourage an open dialogue for the life of the dog.

Use AKC Limited Registration to encourage responsible ownership and discourage irresponsible breeding.

Ensure that puppies that are not of show or breeding quality are sold with an AKC Limited Registration.

Transfer dogs of any age with AKC Full Registration only if the new owner agrees to follow the Code of Ethics of the WSSCA and are aware of and will honor their responsibilities to the future of the breed.

Release or ship no puppy to its new home before the age of seven weeks.

Provide all puppies, prior to releasing or shipping, with at least one examination by a licensed veterinarian, and veterinary care which includes vaccinations on a veterinarian approved schedule.

Provide transferees with a three (or more) generation pedigree.

Provide transferees with their puppy's health record. Provide transferees with complete instructions on diet, training, and care.

Provide an AKC registration application or transfer form unless their contract includes a provision or condition withholding papers.

PLACEMENTS

Members of the Welsh Springer Spaniel Club of America strive to:

Ensure that no dog is sold, consigned, transferred, or brokered to unethical breeders, to puppy mills.

Ensure that no dog is sold to a person who may use the dog in a way that would be detrimental to the breed.

Prevent the use of a Welsh springer spaniel as a prize in any contest, raffle, or lottery.

Act as a mentor to transferees.

Encourage a continued dialogue with transferees throughout the life of the dog in an interest in the well-being of the dog and in the well-being of the breed.

DISCIPLINE

Where applicable under the Rules and Regulations of the AKC or under the WSSCA Constitution and By-laws, and in accordance with the policies and procedures therein, conduct contrary to this Code of Ethics may be subject to disciplinary action.

WELSH SPRINGER SPANIEL RESCUE GUIDELINES

What constitutes a Rescue Animal?

Welsh Springer Spaniels in the following situations:

1. Immediate peril
2. Strays
3. Relinquished to shelters
4. When breeders refuse to take the dog back or give strong support to the owner.

Any dog that cannot stay in its present home that the breeder does not take full responsibility for or any Welsh springer spaniel of unknown origin is considered a rescue dog.

Guidelines for the Rescue Committee

1. To help placeable Welsh Springer Spaniels who are unwanted, abandoned or are victims of inhuman treatment or subject to an uncertain fate find good and loving homes;
2. To coordinate and assist the efforts of committee personnel and WSSCA members in the rescue of Welsh springer spaniels in their area;
3. To provide financial assistance with the rescue effort when the guidelines for rescue are met;
4. To educate potential adoptive owners about the Welsh Springer Spaniels and their special requirements to ensure an educated decision in adopting this breed;
5. To keep statistics on Welsh Springer Spaniels that get into the rescue system;
6. To educate animal control officers and shelter staff on how to identify a Welsh springer spaniel;
7. To encourage the policy that final responsibility for any Welsh Springer Spaniel that needs a home lies with the breeder(s), this responsibility is for the life of the dog, no matter what the circumstances.

Funding For Rescue

Rescue money will be collected annually, with dues, on a voluntary basis. If needed, a special appeal for funds may also be a funding source. Money collected for rescue will be used toward the direct costs in rescuing dog and the reasonable reimbursement of medical fees and impoundment fees. Rescue is a volunteer function of the WSSCA. As the word "volunteer" implies, certain sacrifices should be expected.

Telephone and gasoline expenses should be donated by each volunteer member in the spirit of the rescue program. However, in the event that extensive travel or calls are necessary, the WSSCA will reimburse the member, if a request for reimbursement is made.

Reimbursement

The WSSCA Guidelines must be followed in order to be eligible for reimbursement. Any major deviation must be presented and approved by the Rescue Committee prior to reimbursement;

1. Request for reimbursement will be sent to the Chairperson of the Rescue Committee, who will review and submit the approved reimbursement request to the treasurer.
2. All items for reimbursement must be documented, showing receipts for services. No money will be reimbursed without receipts or some type of clear documentation of expenses.
3. A maximum of **\$500.00** in expenditures will be reimbursed for each dog unless special circumstances have been approved by the Board of Directors and Treasurer.
4. Reimbursements will be paid for dogs that must be bought from Humane Societies or Shelters.

Welsh Springer Spaniel Identification

All dogs must be properly identified as Welsh Springer Spaniels to the best of the Rescue Committee's knowledge. If a dog is found without positive breed identification (registration papers or known breeding) it is suggested that a team of three Welsh Springer spaniel owners/breeders evaluate the dog (either in person or by photographs), if possible, and when the time to be taken for this identification does not place the dog in danger of imminent euthanasia. If there is any question regarding the dog's heredity, the team should give the dog the benefit of the doubt. It is better to rescue a possible Welsh springer spaniel cross than to leave an untypey purebred Welsh springer spaniel behind.

Should a dog be determined not to be a purebred Welsh Springer Spaniel following removal from an animal shelter, rescue group or control center, the WSSCA Rescue Committee Chairperson will attempt to transfer the dog to an appropriate breed rescue group (i.e. Brittany Rescue, English Setter Rescue, English Springer Spaniel rescue, etc.). If the appropriate breed rescue group does not have room to take the dog in to their foster home program, a WSSCA member will be asked to foster the dog in the interim and the WSSCA Rescue Committee Chairperson will work with the appropriate breed rescue group to secure a forever home placement with someone seeking that breed. This will typically involve helping the appropriate breed rescue with photos, website information for posting and screening potential adopters.

Should a rescued dog be determined to be a mixed breed animal, the WSSCA Rescue Coordinator will attempt to seek foster care and adoptive placement with an all-breed rescue group in the area that the dog has been found and rescued in. If an all-breed rescue group is not immediately available at the time of the dog's rescue, WSSCA will continue to care for the dog until such time as it can be transferred to the care and control an appropriate all-breed rescue group.

Medical

1. Dogs that become part of the rescue program should be spayed or neutered. However, each case must be evaluated on an individual basis. If the decision is made to spay/neuter, then it is to be done with money from the Rescue Fund and before the animal is adopted into a new home.
2. Inoculations for Rabies, DHLPP booster and Bordetella are required and will be paid from the Rescue Fund.
3. Heartworm testing and initial preventative medication will be paid from the Rescue Fund.
4. Routine worming that covers all types of internal parasites will be paid from the Rescue Fund.
5. Major medical expenses must have prior approval by the Board of Directors and Treasurer for reimbursement. This includes treatment of heartworm positive dogs, radiographs, blood work and so forth.
6. When a dog is rescued and his/her vaccination status is questionable or unknown, WSSCA will reimburse all charges for up to fourteen consecutive days of veterinary care and boarding in order to reduce the risk to any dogs in the designated foster care home.

Emotional/Treatment Status of Animal

The dog must be of stable temperament and without any serious chronic behavior problem. The dog must be considered adoptable and desirable as a family companion for even a novice pet owner. Any rehabilitation and/or needed training should be attainable by a novice owner. If the animal is in a foster home, that home should start the rehabilitation when possible as it is then possible to learn more about the depth of any problem and the corrective work that may be required. The dog **MUST NOT** have a history of biting, snapping or acting aggressively or being excessively fearful towards people. It should not be aggressive towards or with other dogs. **NO DOG SHALL BE PLACED THAT HAS A HISTORY OF BITING.** This dog should be humanely euthanized at Rescue's expense.

Foster Care

The best situation for the rescue dog is to be placed in a loving foster home until a permanent home may be found. This way, the personality traits, house behavior and reaction to everyday situations of the dog may be observed and any problems noted. The animal should be observed and evaluated for a minimum of 2 weeks, giving the dog adequate time to adjust to new surroundings so that the true behavior and personality may be observed. If a dog must be boarded at a commercial kennel, the Rescue Fund will pay up to \$12.00 per day for a maximum of 2 weeks (14 days).

Adoption Criteria

1. The prospective owners should be personally interviewed and a home visit conducted when possible. The interview should be an in-depth process designed to educate the

individual(s) on owning a Welsh springer spaniel, as well as to evaluate the lifestyle of the prospective owner(s) and plans for the dog. Past dog ownership history and personal views on companion dogs must be explored when evaluating a potential home.

2. It is recommended that the individual meet the dog and then wait to think about the decision for 24 to 48 hours before adopting the dog. This helps prevent emotional impulse adoptions. Prospective owners who are committed will make a second trip to acquire the dog.

3. An adoption questionnaire must be filled out. A written agreement **MUST** be signed by the prospective owner and witnessed. This agreement releases the WSSCA and person conducting the adoption from any liability; forbids the owner from transferring ownership without contacting the Rescue Committee; prohibits the sale or donation of the dog to a person or corporation for experimental research; specifies that the dog will live as a family pet with its emotional needs met and states that the person will provide humane care and treatment including regular care for the dog. The adoption agreement must also require the owner to license the dog yearly, follow local pet regulations and not allow the dog to roam freely.

4. A mandatory adoption donation of \$400.00 is to be collected at the time of adoption. The check should be made out to the Welsh Springer Spaniel Club of America, Inc. The purpose of the adoption fee is an indication of the new owner's commitment to the dog and to replenish the Rescue Fund for the next dog. An owner that cannot afford a reasonable adoption donation cannot afford to maintain a dog properly.

The Rescue Committee's responsibility toward the new owner is to provide:

1. Documentation of all medical care, including Rabies vaccination certificate.
2. General information about the dog's age, where found, history and so forth.
3. Guidelines for feeding and general care.
4. Any observed behaviors, rehabilitation guidelines, if needed, and a general statement about the adjustment period for re-homing.
5. Names and telephone numbers of local WSSCA and Rescue Committee members to contact with questions or concerns.
6. A copy of the signed agreement.
7. After adoption, quarterly follow-up calls and/or visits should be made to check on the progress of the dog for a period of one year. Thereafter, a yearly check is sufficient.

Rescue of Puppy Mill Sales/Auction/Charity Raffle Dogs

The Welsh Springer Spaniel Club of America will not, as an organization, endorse the purchase of any dogs offered through puppy mill sales, auctions and/or charity raffles as the funds spent in the rescue effort may be further used by the seller/auctioneer to continue those efforts that have been deemed not to be in the best interest of the dog(s).

For more information, contact the WSSCA Rescue Committee Chairperson.

WSSCA MENTOR GUIDELINES AND QUALIFICATIONS

The list of WSSCA approved mentors shall be posted on the WSSCA website and shall be updated yearly. The Judges Education Chairperson will send the annual listing to AKC and the WSSCA webmaster.

Approval from the WSSCA Board of Directors and the WSSCA Judges Education Committee is needed for a person to be listed and considered as a WSSCA approved Mentor.

Approval from the WSSCA Board of Directors shall come from a majority vote. If either the WSSCA Board of Directors or the WSSCA Judges Education Committee does not approve an application, the application shall be denied. In the case that an applicant is denied, the person shall be supplied with the reason for the decision by the WSSCA President.

A 2/3rds WSSCA Board of Directors vote for mentor removal, accompanied with a recommendation for mentor removal by the WSSCA Judges Education Committee, shall remove a person from the Mentor list. In the case that a person is removed from the mentor's list, the person shall be supplied by the WSSCA President with the reason for the decision.

Each mentor shall, within a week of the mentoring session, disperse a WSSCA Mentor Feedback Form to each student. The completed form will be mailed or emailed to the Judges Education Chairperson for feedback and monitoring of the Mentor Program. The mentor shall not participate in or be present during the completion of the form.
